

F45 AWNINGS 'UNIQUE FEATURES'

Only FIAMMA AWNINGS Have Dual Shock Absorbers
The Dual Shock Absorber protects both the awning and vehicle during imperfect weather conditions

Perfect Closing Every Time
The FIAMMA AWNINGS are the only awning with a new adjusting system that enables you to gauge the closing of the front bar, if over a period of time, one should stop closing perfectly

Smooth and Silent Opening
FIAMMA manufactures the only awning with silent opening thanks to the TUC certified Auto Lock self locking winch safety system, with exclusive Syncro 4 long life Aluminium mechanical parts. The system facilitates easy and quick opening of the awning.

Dual Security
The security of FIAMMA AWNINGS is also guaranteed by the Dual Security system. It is a special device showing the closure of the front bar to the awning case by two small plastic flags inside the side end caps.

Secure Leg Locking
Thanks to the telescopic system of the legs with manual locking, accidental collapses are avoided

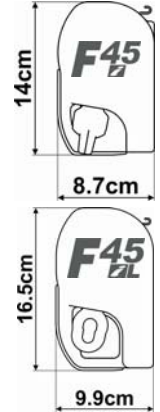

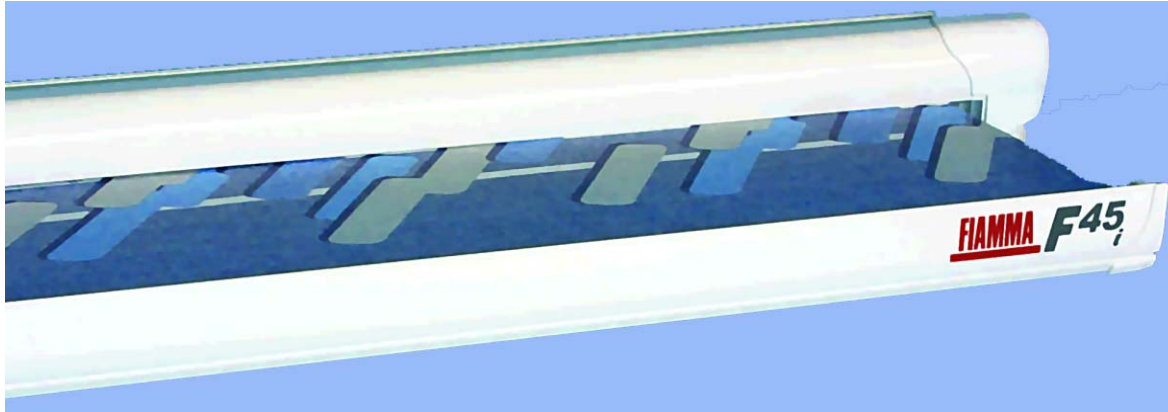

Extra Strong Arms
Sturdy reinforced articulated arms with twin cables. The awning opens and closes smoothly and silently
