L.P.G REG & SOLENOID REMOTE SHUT OFF KIT

The control switch/indicator lamp can be mounted near the galley door so it can be reached without entering the galley. A further switch can be fitted in series with the first at a more remote location if desired, this could be a relay wired into the vessel's L.P.G alarm system to effect an automatic shut down in the event of the alarm sounding.

- SA138K** 12VDC solenoid
- SA138-24** 24VDC solenoid

LP/NATURAL GAS SYSTEM LEAK DETECTOR

Test LPG or natural gas systems for leaks and system pressure with this kit. A must for all LPG and natural gas system installers. You can check pressure directly at an appliance, and to test gas controls for correct pressure. Its easy to read dial gauges 0 to 20 ounces per square inch on inner reading and 0 to 35 inches of water column on outer reading. Kit comes mounted in a case with 850mm of soft hose. Kit includes instructions and a brass pressure tap fitting for gas control.
