

SOLAR TRICKLE CHARGERS

2WATT ICP SOLAR PANEL

12 Volt

Includes built-in discharge and overcharge protection. Verify sunlight exposure by the push of a button (Blue LED). Charges your car battery via the cigarette lighter socket or Connect to your battery with clamps. Retractable wings and suction cups for window mounting
Dimensions L394mm x W127mm x D20mm

SA2650

6WATT ICP SOLAR PANEL

12 Volt

Includes built-in discharge protection. Charges your RV or boat battery via your connection of choice (complete accessory wire set included). Verify sunlight exposure by the push of a button (Blue LED). Easily install multiple panels when you need more power. Works outdoors under extreme weather conditions such as hail, snow, or elevated temperatures.

Dimensions L375mm x W360mm x D26mm

SA285

18WATT ICP SOLAR PANEL

12 Volt

Verify sunlight exposure by the push of a button (Blue LED). Constantly charges your large battery via your connection of choice, includes a complete accessory wire set. Easily install multiple panels when you need more power. Efficient under low-light and extreme outdoor weather conditions such as hail, snow, or elevated temperatures.

Dimensions L1000mm x W350mm x D30m

SA286

SOLAR BATTERY MANAGEMENT

PROSTAR CHARGE CONTROLLER

The Prostar uses a 4 stage charging system. PWM constant-voltage regulation to prevent heating and excessive gassing. Features include: low voltage warning, load short circuit & overload protection, high temperature disconnect, protection against reverse current leakage at night. Suitable for gel, sealed or flooded batteries. Suitable for 12V or 24V system.

SR-250TL 15 Amps

SEMI-FLEXIBLE SOLAR PANELS

12 Volt (2 Panels for 24v)

SM-40M	10 Watts	445 x 267
SM-60M	15 Watts	620 x 250
SM-120M	30 Watts	590 x 450
SM-160M	40 Watts	740 x 450
SM-225M	56 Watts	745 x 610

SOLARA CHARGE CONTROLLER (Regulator)

SR-60UL	4 Amps	12v
SR-135TL	8 Amps	12v
SR-170CX	10 Amps	12v/24v
SR-340CX	20 Amps	12v/24v
SR240MPP/12	16 Amps	Solar boost

SOLARA CHARGE CONTROLLER - LCD

LCD display.

SR-170LCD	10 Amps	12/24v
SR-340LCD	20 Amps	12/24v

SOLAR PANEL INSTALLTION KITSET

Kitset includes all components necessary to install solar panel:

- Solar panel
- Charge controller
- Amp meter
- Heavy duty fuse

Wiring and Mounting Brackets Not Included

SP90K Solar 90 Watt

SOLAR PANEL FUSE AND HOLDERS

SA2659F	7.5 amp Heavy Duty Fuse
SA2659H	Fuse Holder (Blade Type)

90watt SUNPOWER SOLAR PANEL

'High Output and High Efficiency'

The New Sunpower Panel is ideal for a wide range of applications where high battery-charging current from a small footprint is desirable. Our monocrystalline silicon solar cells combine higher voltage per cell with an extremely low voltage temperature coefficient to enable superior battery charging performance at high operating temperature. Exceptional low light performance and broad spectral response further enhance energy delivery in all weather conditions, year round.

A sturdy, black anodized frame with mounting holes to match the industry norm enables easy installation on currently available mounting structures

Over 5.1 amps of peak charging current

Unique back-contact solar cells with conversion efficiency up to 21.5%

Low voltage-temperature coefficient ensures maximum battery charging current is available even during high-temperature operation

Exceptional low-light performance and high sensitivity to light across the entire solar spectrum maximizes yearly charging performance in any weather

Highest quality 4mm thick high-transmission tempered glass provides enhanced stiffness and impact resistance

Aerospace style cell interconnects with in-plane strain relief provide extremely high reliability

Specifications:

L 1038mm x W 527mm x D 46mm
Weight 7.5kg
